

AAFA - Thermo Fisher Scientific Partnership Pricing
Thermo Scientific Niton XL3t XRF Analyzers
(Subject to AAFA membership and final customer specifications)
(Reference AAFA 0812)

Do you need to comply with the CPSIA (HR 4040)?

Thermo Scientific Niton analyzers are the most advanced handheld XRF analyzers on the market today. Niton XRF analyzers feature our patented TestAll™ technology, Painted Products mode, and optional small-spot focus and CCD camera features while also providing encrypted data and photographic record of all screening measurements for compliance files.
